Grad Module 303 Building Teams God's Way

All organizations—families, churches, businesses, nations—are “teams.” The question is, can they “run plays” successfully and achieve excellence in their goals? This graduate module explores what teamwork looks like from a Biblical perspective and what it produces. We will examine the definition of “success” in the game, how to recognize, build, and play on successful teams, and how to implement Kingdom principles that honor God and bring harmony to our organizations.

This eight-part series is broken in to four sections on the following topics:

- Key Structures and the Physics of Building
- The C-4 Model
- Aligning Structures, Values, and Relationships
- Organizational Stability
